

# FONTANA 1844 | TECHNICAL DATASHEET

## CENTRE WING CAST BASIN

Cast basin. Right bowl. Single tap hole with integrated overflow. The basin section is designed to only sit on a 600mm basin unit with space on the right and left for further units.

Why not create a Modular set up with a matching Fontana Worktop available in 644mm & 1244mm lengths.

## CM • CAST MARBLE

The core ingredient of our Cast Marble basins is Dolomite Marble which is formed through volcanic action. The rock is milled and purified before being mixed with polymer resin formed into the required shape and then coated with a resin and quartz mixed gel coat to save its pigment and smooth finish.

The result is an extremely durable and easy to maintain product coupled with the benefit of constant sizing and smooth finishing that cannot be matched by traditional ceramics. Scratches are also repairable making this a more forgiving option. Cast basins have a sharp and ultra modern structured appeal to them.
