

GENERAL SPECIFICATIONS:

- 950 & 1410mm widths
- 700mm height
- 30mm depth
- Will need to be hard wired to a switch for lighting control
- Heated Demister Pad
- Halo illuminated wall mirror
- 4mm glass with safety film backing
- Rear power cable
- Ingress Protection - IP44
- Rating - 220-240V, 50/60Hz, 20w
- For use in 'Zone 2' and above

FITTING

ELECTRICAL SAFETY INSTRUCTIONS

All fittings must be installed by a competent person, in accordance with current IEE wiring regulations. If in doubt consult a qualified electrician.

IMPORTANT

Always switch off the electrical supply at the mains during installation and maintenance. It is recommended that the fuse is withdrawn or the circuit breaker is switched off for the necessary circuit before installation commences. Fitting in Bathrooms is subject to the appropriate zone in accordance with IEE Regulations. This product is suitable for Zone 2 and outside zones. IT IS NOT suitable for installation in Zone 0 or Zone 1. It is also not suitable for installation in saunas, steam rooms or shower cubicles. This product is only suitable for permanent installation. DO NOT connect to a trailing plug and socket outlet. Although this product has an Ingress Protection rating of IP44 it is only suitable for indoor use. Do not attach the product to surfaces that are damp or otherwise electrically conductive.

INSTALLATION SAFETY AND CARE

DO NOT strike glass components with hard or pointed items. DO NOT place very hot or very cold items against or in close proximity to glass surfaces unless an adequately thick insulation material is used to prevent such items coming in contact with the glass. The nominal thickness of the mirror glass used in this product is 5mm and is film backed for safety. If the glass becomes chipped or broken we advise the whole unit is replaced due to being a complete sealed unit. This product should be positioned well away from curtains and other fabrics. Never cover the mirror. This product is heated, we recommend that it is turned off after use and should never be left on for prolonged periods of time.

CLEANING

It is recommended that the unit is cleaned with a soft, dry, non abrasive cloth when turned off. A non wax polish can be used to buff out finger prints on the surface. Do not allow moisture to come into contact with the electrical components.

COMPLIANCE

This product complies with all relevant British and European safety standards.
